

BE AN AT HOME PROVIDER!

MAKE A DIFFERENCE WITH THOSE IN YOUR COMMUNITY.

Our Host Home program offers a nurturing environment where individuals with intellectual and developmental disabilities reside with committed caregivers. These caregivers are more than care providers; they are champions for well-being, educators, and companions, to family.

PERSONALIZED SUPPORT SOLUTIONS

We initiate our Host Home program with a specialized matching process, pairing individuals with qualified caregivers adept at meeting their unique needs. In collaboration with these caregivers, participants, and their families, we craft tailored service plans, dynamically adapting them to achieve milestones or address evolving requirements.

PERSONAL CHOICE

Active participation characterizes the daily planning of those in our host home program, empowering them to outline the necessary services for their success.

Our inclusive approach features:

- † 24-hour support in family homes
- † Life skills development
- † Community events & day programs
- † Advocacy services
- † Community integration
- † Family involvement & support
- † Medication management
- † 24/7 on-call assistance for caregivers
- † Quality improvement

At Faith & Family, our host home program stands as a testament to transformative care, having significantly impacted the lives of many – opening doors to learning, personal growth, and the pursuit of their aspirations.

IT'S ALL ABOUT RELATIONSHIPS

Our host home program centers on creating heartfelt matches between individuals and caregivers for relationships that last. It's these strong bonds, nurtured in a family setting, that define our success. Our clinical experts and human services veterans enable caregivers to deliver tailored care, integrating individuals into the rhythm of family life and its shared experiences including:

- † Learning new skills
- † Socializing with family & friends
- † Managing household chores
- † Discovering new hobbies
- † Improving independence
- † Participating in community events
