BAXA'S SUTLIFF STORE & TAVERN

There is really no town called Sutliff anymore, but there is still a small town bar. When you come inside you will find a ceiling that "who knows" how many dollar bills on it, with name and dates written on them...some from different countries!

If you would like, you can order your food to take outside to eat on the patio, the bridge, or picnic tables lining the river!

A little bridge history...the massive iron bridge was constructed in 1898 at the crossing of Sutliff's ferry, operated by Allan C. Sutliff. History has it that a sandbar formed in the river which eventually made the ferry unworkable.

In 1897 the contract for the bridge was awarded to J.R. Sheely & Co of Des Moines, IA. The winning bid was a whopping \$12,000. It proved to be an effective replacement of the ferry service. It is on of the longest, if not the longest, Parker Truss bridges in the state. In 1999, the Sutliff Bridge was placed on the Historical Register. Its years of service to Sutliff natives and visitors was recognized with a plaque, which is not proudly displayed in Baxa's Sutliff Store & Tavern.

The old bridge offers its visitors a one of a kind view of the fast flowing Cedar River as a well as an enjoyable place to sit and visit with friends and family alike!
