Robb started this business in 1995 and has done over 1,350 weddings to date. At BMW Music Entertainment, we play the music you want. It's your day, your way. Upon booking with us, we have a consultation – we go over everything for the day, give you a packet that consists of a music list and other questions and ideas that may or may not be in your best interest for your special day. We then meet again about a month prior to your day and go over everything in detail.
