

MEET THE TEAM

Dr. Jerry Murphy

Rockingham Chiropractor

Choosing the Conservative Path

Growing up, Dr. Murphy had family members who had surgeries for their back problems. He was confused as to why they were still suffering afterward. As a health-conscious person, Dr. Murphy gravitated toward more conservative options to stay well. Some back problems led him to see the physical therapist and having MRIs. When nothing else worked, he ended up in the hands of a chiropractor.

That experience changed Dr. Murphy's entire thought process. Though he'd considered becoming an ER doctor, he quickly decided to become a chiropractor.
